Education

Vellore Institute of Technology	2022 – 2026
B.Tech in Computer Science and Engineering	CGPA: 7.8/10

Agrasain Boys School	2022
Class XII (ICSE)	Score: 87%

Agrasain Boys School	2020
Class X (ICSE)	Score: 90%

Skills

Languages: Java, Python, SQL

Backend & Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, WebSockets, STOMP, REST APIs

DevOps & Cloud: Docker, Git, CI/CD, Google Cloud (Cloud SQL, Cloud Run), OpenAPI/Swagger

Core Areas: OOP, Operating Systems, Data Structures & Algorithms, System Design

Projects

Collaborative Code Editor

[code](#)

Spring Boot, WebSockets/STOMP, OT, Redis, MySQL, Docker

- Developed a live multi-user coding backend supporting 5–10 active editors with 150–200ms synchronization across shared files.
- Integrated OT-based conflict resolution using Redis + MySQL hybrid persistence to maintain consistent shared state during concurrent edits.
- Containerized backend, Redis and MySQL using Docker Compose and collaborated on test cycles using multi-tab and Postman-based scenarios.

EventZyll

[code](#)

Spring Boot, OAuth2/JWT, Keycloak, SpringDoc, MySQL, ZXing

- Developed booking flow supporting 5–20 events and 20–100 tickets per event, with QR-based verification completed within a few seconds.
- Configured Spring Security with OAuth2/JWT and Keycloak to implement role-based access control across three independent user flows with endpoint-level authorization.
- Documented routes using SpringDoc to reduce API onboarding queries and testing turnaround time by an estimated 30–50%.

QR-Driven Queue Automation

[code](#)

Java, Spring Boot, WebSockets, Docker, MySQL, OpenAPI, Google Cloud

- Built QR-based onboarding where users could join active queues within 2–3 seconds after scanning.
- Delivered 7 OpenAPI-documented REST endpoints with MySQL/PostgreSQL/Cloud SQL support, improving integration ease by an estimated 25–40%.
- Implemented WebSocket-driven update flow and verified concurrency using 10–50 simulated tabs, maintaining <120ms state update latency.

Achievements & Extra Curriculars

- Solved 320+ DSA problems on LeetCode, including 160+ medium-level questions.
- Completed JPMorgan Chase and AWS virtual simulations focused on backend API development and deployment workflows.
- Captured and edited over 250 images for university events as part of the VIT Photography Club.

Additional Information

- Languages: Hindi (Native), English (Full Professional Proficiency)
- Certifications: Bits and Bytes of Computer Networking (Coursera), Blockchain Fundamentals
- Interests: Learning software tools, chess, movies, and music.
